School Assessment No:	
Title of Activity:	Informatics Tutoring Scheme (in person)
Location(s) of Work:	Sudanese Community Group: East Neighbourhood Centre Ukrainian Displaced Children: TBC
Brief Description of Work: Informatics Tutoring Scheme is a project in which Informatics students and staff support Scottish Computer Science and Maths exam-level high school students through small group tutorial sessions. All in-person sessions will be group sessions, no one-to-one sessions will take place in person. No sessions will take place until all tutors receive their PVGs. All tutors are registered STEM Ambassadors. If the sessions are co-organised by another group/charity, then a representative of that group will be at hand during sessions to help if any issues occur.	

Hazard Identification: Identify all the hazards; evaluate the risks (low / medium / high); describe all existing control measures and identify any further measures required. Specific hazards should be assessed on a separate risk assessment form and cross-referenced with this document. Specific assessments are available for hazardous substances, biological agents, display screen equipment, manual handling operations and fieldwork. See <https://www.ed.ac.uk/health-safety/online-resources/risk-assessments> for details.
